Typographical Union Was Prepared for Epidemic.

Paid Its Members Who Were Unable To Work.

RELIEF COMMITTEE IN CHARGE

Each Printer Contributes One-Fifth of 1 Per Cent.

pelief committee of his union (all Topeka printers are members of the typographical union) and out comes a check for \$5. When he has been out another week clong comes another check, this time for \$10. Six more times he may call and be answered by a ten-spot. If still unable to work at the end of the ninth week he is probably ready for the union printers' home, the magnificant institution at Colorado Springs, there to avail himself of its bounty until health and strength come again. This home is owned and maintained by the 62,000 union printers in America at a cost to each of 20 cents a month.

Established a Year Ago.

Pvt. Aifred Turnquist, Stranton. Weanded Slightly.

Pvt. Chas. E. Houghton. Evt. Chas. E. Houghton. Established a Year Ago.

Established a Year Ago.

The Topeka Typographical union ick benefit fund was established Nomber I, 1917, without capital. On hat date each printer began to pay no the fund one-lifth of one per cent f what he carned, plus 16 cents per conth, with 10 cents refunded to him he attended the union's monthly seeing. No claim for benefit was made until May. Sint its inception he fund has received \$619 and paid ut \$335. Twenty-three claims have sen made by ninetten members. The fulnerac epidemic laid its malignent and on the fund for the first time ovember 5, and ten times since has a union paid its solid comfort to ju" victims.

Pass On All Claims.

The committee which passes on all claims is composed of Otto L. Rahn, chairman, Ernest A. Wright and J. J. McConville, who serve without pay, and that the committee rays, is the secret of lew-priced insurance. A low-price sick and accident insurance scheme which pays \$10 a week, starting without capital and laying by for reserve more than 50 cents for each dollar paid in benefits, despite an epidemic, naturally gives gratification to its originators and administrators. Its features have been so attractive to the committee that, like the reporters who wrote "fig" stories, they themselves succumbed, and while not one out of eight of the total membership has made claim for benefit two of the three members of the administrative committee have received the union's check during their own liness.

Union Gives Pension. Pass On All Claims.

power of eight of the total membership thas made claim for benefit two of the three members of the administrative committee have received the union's check during their own illness.

Union Gives Pension.

Printers who reach the age of 66 and are unable to secure sustaining employment at the trade are pensioned by the International Typographical union. Six Topeka printers receive pensions. Three hundred members of the international live at the Colorado Springs home. The goes (paradox tho it be) as an honored guest to his bwn home.

While not even a Topeka printer can pretend to keep even with his bills on \$10 a week, he knows that when he gets well he can pay. If he doean't get well the union will pay his people \$400. In more than one instance has a Topeka printer been maved embarrassment by this union benefit, and the plan has worked out provided in revictualling devastated portions of France, Serbia, Belgium and Rumania, now destitute of food. These ships were wrung from the Germans with Gumania, now destitute of food. These ships were wrung from the Germans by the armistice commissioners with out pledging that Germany would be supplied with food.

At present no supplies will be sent to Germany, the first relief work of the allies being planned in neutral countries. Meanwhile it is believed that the Germans can subsist on food stored for the use of their army and hoarded by peasants.

A thoro investigation of the food resources of the central powers is being made, and only after the needs of the entente nations and neutrals are met will supplies be diverted to enemy powers, should such action be found imperative.

HISTORY OF 35TH

Kansas Historical Society Gathers Manago and the plan has worked out the commissioners with the ships were wrung from the Germans by the armistice commissioners with the supplied with food.

At present no supplies will be sent to Germany, the first relief work of the allies being planned in neutral countries. Meanwhile it is believed that the central powers is being made, and only af

Irs E. Taylor, Assistant Engineer of Extension Division.

Manhattan, Kan., Dec. 21.—Irs E. Taylor has been appointed assistant engineer in the extension division, Kansas State Agricultural college, and will make farm drainage his specialty. He will be available for field work.

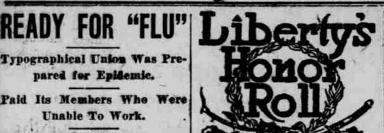

Taylor holds the degree of bachelor.

work.

Taylor holds the degree of bachelor college. He has had experience in concrete pavement construction, in the postaphical surveys in drainage districts, in engineering work for the santa Fe railway and as county engineer of Pottawatomic county. He was honorably discharged last month from the engineer officers' training school.

Taylor holds the degree of bachelor college. He has had experience in concrete pavement construction, in the engineer from the construction, in the engineer of the month of every soldier of the Thirty-fifth division.

STOPS ANY COLD IN A FEW HOURS

"Pape's Cold Compound" opens clogged nose and head and ends grippe.

Relief comes instantly.

A dose taken every two hours until three doses are taken will end grippe milsery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nose riles and air passages in the head, stops nasty discharges or nose running, relieves sick headache, duliness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.—Adv.

an Era of Prosperity.

REPORTS FROM 34 STATES

Show Nation on Eve of "Good Times" Now.

Men Are Being Cared for a They Come Back.

New York, Dec. 21.—Resumption of peace time pursuits with the addition of new industries, such as dye making. and the boom expected in the building

and the boom expected in the building trades, will carry the United States at once into a period of great prosperity, according to reports gathered today by the United Press.

When restrictions on building trades are fully raised and the need for manufactured and raw materials in Europe becomes keenly felt, business depression which may result from the stopping of war work will be rapidly overcome, it is believed.

Representatives of industry in thirty-four states, just concluding a conference of the advisory committee of the national council for industrial defense here, declars the nation is on the eve of "good times" with jobs aplenty for returning soldiers and men and women thrown out of work in munition plants.

Plenty of Work for All.

Plenty of Work for All.

Thomas McCusker, manager of the Industrial Association of Oregon, declared women were good enough for war work and they will be good enough for peace pursuits. They will not be dropped now that men are returning, he said, and added that every man returning from the army or navy will find a job waiting for him.

"Our section of the country has raised no war bables." said J. C. H. Reynolds, secretary of the Employers' Association of the Inland Empire, Spokane, Wash, "and therefore we are not affected by the loss of war contracts. We have about three years road work to catch up with and that alone will give employment to hundreds.

"Washington and Idaho alone cov-

10th Division in the immediate future is not contemplated by the war department at this time, according to your telegram of the 10th Division. The following letter was received.

"With reference to your telegram of December 12, in which you request definite instructions as to the policy concerning the discharge of organizations of the 10th Division, you are informed that the demobilization of reganizations of the 10th Division, you are informed that the demobilization of organizations of the 10th Division, you are informed that the demobilization of the New ardepartment at this time.

"The discharge of enlisted men in the organizations should be limited to the mest urgent cases."

Make a Quick Change.

Reports from Pennsylvania, Connecticut, Delaware, New Jersey, Virginia, Ohio and other war industries centers showed remarkable speed in the transmission from munition manufacture to peaceable pursuits. Dye factories of huge dimensions have been built by the Du Pont interests to take place of the monster shell and explosive producing plants which made new cities in several sections.

Philadelphia reported a surplus of jobs with returning soldiers and munition makers being greedily snapped up. Steel plants at Harrisburg. Pittaburgh and other centers are being rapidly returned to manufacture of building, bridge and other non-war steel.

Wisconsing plants are being shut

steel.

Wisconsin's plants are being shut down for the most part, but about 15 per cent of them have been transformed into dye works.

Indiana is turning back to the building of automobiles.

Detroit, industrial center of Michigan, is gradually returning to old time pursuits, with automobile manufacturing leading.

Ohio reported a surplus of men, but at least fifty returning soldiers are being put to work each day in Cleveland.

Absorb Those Returning.
